WASTEWATER MAINTENANCE MAN II

General Statement of Duties: Performs semi-skilled manual work in the maintenance, repair, and extension of a Wastewater Collection System; does related work as required.

Distinguishing features of the class: This is technical and manual work involving responsibility for performing moderately complex duties such as making semi-skilled plumbing installations in the extension, maintenance and repair of the wastewater collection system. The incumbent may also be assigned other duties in the Wastewater Department such as general upkeep of pump stations. More complex work may be performed under direct supervision, with routine work ordinarily performed under general supervision. The Wastewater Maintenance Man II employee may direct the work of helpers or laborers.

Examples of work: Repairs grinder pumps, sewage injector pumps, and related equipment as needed. Cleans pump stations, maintain grounds, removes snow, etc.,. Maintain pump station logs, responds to emergency as a result of pump station, grinder stations, failures, surcharged mains, odor problems, etc.. Flush sanitary sewer mains as needed. Inspects service lateral connections as needed. Repairs manhole rings and covers, locates under ground sewer mains, service laterals and electrical power wires as needed.

Required knowledge, skills, and abilities: Good knowledge of the use of tools and equipment required in the construction and repair of the municipal sanitary sewer system; working knowledge of the common practices, principles, terminology and safety precautions used in the maintenance, repair, daily operations, and expansion of the municipal wastewater collection system; ability to perform heavy manual labor for extended periods, sometimes under adverse weather conditions; willingness to report for emergencies; ability to understand and carry out oral and written instructions; dependability; good physical condition. Must maintain a valid Class III CDL with tanker endorsement driver's license.

Acceptable Experience and Training: Two years experience working on a public or private wastewater collection system.
